

Technological toys facilitate children's learning

By Irma Shaboian

GRIN Verlag GmbH Okt 2014, 2014. Taschenbuch. Book Condition: Neu. 211x172x6 mm. Neuware - Scholarly Research paper from the year 2014 in the subject Pedagogy - Common Didactics, Educational Objectives, Methods, , language: English, abstract: Childhood play is a critical component that contributes to the language competences of children. Developmental theory highlights the importance of social interactions during caregiver-child play in fostering language acquisition of children (Vygotsky, 1978). The inclusions of conventional toys, such as blocks and puzzles, have been accredited to promoting language development in children by encouraging the use of scaffolding techniques by the caregiver (Wood, Bruner, & Ross, 1976). However, as society places more emphasis on technology in all aspects of life, the incorporation of technological toys as a learning medium remains inconclusive. The purpose of this study was to investigate the use of the VINCI tablet on language acquisition of children in order to assess (1) whether there are differences in caregiver speech when either a traditional or technological toy is used during play and (2) what aspects of caregiver speech vary. We found that the use of the VINCI tablet resulted in higher Preschool Learning Scales Fifth Edition (PLS-5) post-test scores in comparison to the...

Reviews

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You won't feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).

-- **Prof. Kirk Cruickshank DDS**

This kind of book is every little thing and taught me to looking ahead of time and a lot more. I am quite late in start reading this one, but better than never. I found out this book from my dad and i encouraged this pdf to find out.
