CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 50 pages. Dimensions: 8.0in. x 5.0in. x 0.1in. Regardless of what you may have heard short-term survival, we are talking two or three days up to ten days, is really quite simple. Dont get me wrong I am not trying to diminish the danger of a short-term survival situation. All I am saying is that unless you are injured or in a harsh environment survival is not going to be as difficult as you have probably been led to believe. Our goal with Short-Term Survival Guide is to debunk some of the erroneous information that is out there concerning short-term survival. Many of the survival sights as well as many of the survival books would lead you to believe that if you become stranded or lost for whatever reason your life is in imminent peril. They lead you to believe that without food or water you will perish within hours, this is a completely false concept. This is a dangerous concept which leads to panic. Panic is greatest danger is a survival situation. You dont have to go to a survival camp to learn how to survive. You dont need to learn to rub two sticks together to start a fire, or how to make a solar still in order to have water. We explain how you can prepare so with a few simple items you wont have rub sticks together, eat bugs or drink contaminated water. This item ships from La Vergne, TN. Paperback.
