Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1915 Excerpt: . . . BOOK REVIEWS. Eugene Untermyer, Editor-inCharge. Handbook Of The Law Of Municipal Corporations. By Roger M. Cooley, LL. M. St. Paul: West Publishing Co. 1914. pp. xii, 711. There is perhaps no field of our entire law that is more spotted than that which we designate as the law of municipal corporations. In spite of the monumental treatises that have been written upon this subject, there is a distressing amount of vagueness and inconsistency in many of the doctrines and principles that have been evolved. Prof. Cooley has set himself a difficult task. He has essayed to give a clear and concise treatment of those fundamental principles which must be and are applied in any attempt to formulate or construe the law of municipal corporations as found in the various statutes. In a brief handbook dealing with so vast and complicated a subject there is obviously little opportunity for a critical and comparative analysis of these fundamental principles. To the extent that these principles are themselves in more or less logical contradiction conflicts and ambiguities of declaration must be expected. In plain point of fact this extent is by no means inconsiderable. However, even though due allowance be made for the necessities of brief treatment, several criticisms of this work may be recorded. Thus the author has somewhat overstressed the statutory sources of the law of municipal corporations. He has not indicated with sufficient force that an already large and ever increasing proportion of the law...
